## Metal Prints

Metal Prints give your images a modern and edgy feel. Images are printed directly onto high quality aluminum with 1/8" rounded corners through a dye sublimation process that offers a clean and lasting final product. Metal Prints will grab the attention of viewers when displayed on an easel or mounted to the wall. Choose from optional mounting solutions, including an easy to hang gatorboard block that allows the print to float off the wall, or ultra-sleek metal posts that provide a contemporary look. Add 1/4" or 1/2" acrylic with metal posts to create an even more impressive display.

### Gallery Wraps

We offer both Fine Art Canvas and Lustre photographic paper Gallery Wraps with custom sizes between 5 in. x 5 in. and 40 in. x 60 in. Gallery Wraps arrive complete and ready to hang on the wall the moment they are received.

Gallery Wraps are available printed on a fine art canvas using an inkjet process or on Lustre Photographic Paper using a traditional canvas process. Lustre paper Gallery Wraps enhance the look and vibrancy of your image. With photographic print gallery wraps, an actual photographic print is created and its emulsion is stripped, bonded to canvas and wrapped around the wood frame.

Gallery Wraps are made with real wood available in 1.5 in. and 2.5 in. depths. Mix and match lengths to create the perfect custom size.

All gallery wraps include a matte, semi-gloss, or high gloss laminate to protect the gallery wrap from scuffs, scratches, and cracking. The laminate also provides UV light protection.

Framing paper covers the back of the gallery wrap with metal hangers and corner bumpers, or choose the wire hanger option without paper backing. Your gallery wrap will be ready to hang on the wall the minute it arrives.

### Float Wraps

Float Wrap are the new, unique option to display images. Float Wraps are similar to Gallery Wraps in that they add dimension by extending out from the wall. Float wraps are unique in that they appear to be floating on the wall with the main focus on the image! Create a modern display with a Float Wrap wall collage that is ready to hang once removed from the box!

Float Wraps are created by wrapping the photographic print or canvas print around masonite to create a thin wrap. The print or canvas is protected with a laminate and padding is added between the print and the masonite to give the front of the Float Wrap a raised, elegant look and feel. The back of the Float Wrap is complete with black paper backing and a black .75 in. or 1.5 in. thick gatorboard block that allows the Float Wrap to extend out from the wall. The back of the block also contains drilled holes for hanging. Or, if you'd prefer to display your Float Wrap on an easel, you can order your wrap without the gatorboard block.

## Standout Mounts

Standout is the perfect contemporary mounting option that doesn't require a frame to hang on the wall. The sleek edges and sides of the Standout mount can create a modern wall display with the focus all on the image. Standout is available in two depths, 3/4" and 1-1/2" so dimension can be added to a wall by mixing and matching Standout depths in the display. Standout is currently available in popular sizes from 8x10 to 30x40.

Standout is made from lightweight foam banded with a Black, White, Light Wood, or Stainless edge and comes ready to display with hanging holes on the backside.
